

## Logging in to **Schoology**:

<p>1) It is very important to use the Chrome browser for all BCPS student work. It is possible to use a different browser if you have to but many things will not function outside of Google Chrome – step 1 open Google Chrome and google search for “bcps one” or type in bcpsone.bcps.org</p>		
<p>2) click on the orange Login to box and enter the STUDENT (or care giver / parent) username and password. Student usernames look like this ejs465 and passwords will mostly look like this: books376. Note this is one of the <b>ONLY</b> times you will just use ejs657 as a username – in most other situations you will be adding @bcps.org to the end of the ejs657 to make it ejs657@bcps.org</p>		
<p>3) Click on the Schoology tile and you are in. In BCPS schools we almost never go directly to a site or online platform. We always go to BCPS one first then click on the tile or link from there. Do not go directly to Schoology.com or dreambox.com or pebblego.com or any other site always click to them from BCPS one.</p>
