

How to create a BCPS ONE account and add students to it – this will add them to Schoology as well

Scan code to watch the video

<p>1. Go to BCPS ONE</p>		<p><a href="https://bcpsone.bcps.org/">https://bcpsone.bcps.org/</a></p>
<p>2. Create an Account</p>		
<p>3. Log back in and click on “My Profile”</p>		<p>(This is the step that is not obvious)</p>
<p>4. Click on “Add Student”</p>		<p>If this step does not work it means the email that your school has on file for you is not the same as the email you used to create your BCPS ONE account. Or there is another problem Either way – call your child’s school to have this fixed.</p>
<p>5. Follow the add student directions then log back in and go to Schoology – your student(s) will be listed when you click your name in Schoology</p>		<p>We do not use the “Add Child” button you see to the left in Schoology, adding a child is done through your profile in step 3</p>
